

DYNAFLOOR COATINGS

DYNAFLOOR produces an extensive line of epoxy and alkyd-based, high-performance floor coatings, including a colorful array of industrial coatings. These exceptional coatings have been developed and tested over a number of years in “real-use” situations. DYNAFLOOR gives customers what they need in floor coatings – quality, diversity and innovation.

Our coatings are available in an assortment of 20 standard colors, with custom tints available to match your color requirements.

All of our floor coatings have a superior resistance to normal wear and tear, and other types of abuse, such as acid or alkali spills. These coatings are also conductive and static dissipative. All DYNAFLOOR coatings can be customized to suit your design or facility needs, including company logo placement.
